New York, December 2.—R. G. Dun & Co.'s Weekly Review of Trade to-morrow will say:
"Business, while not large as was anticipated a year ago, is nevertheless of fair proportions and rests upon a basis of economic conditions, which in the main, are satisfactory. The encouraging features are the unabated agricultural productiveness of the accountry, the absence of demoralizing speculation, the lowness of mercantile stocks, which contribute so largely to the soundness of the sluation, the conservation of the country's credits, and the signs of increasing relaxation in the money market.

chester is doing a brisk business at prices showing a distinct upward tendency. It is insisted that there is a brisk demaind for spot cotton at the South and that prices there are generally firm. Retail trade in dry goods shroughout the country is reported good, favored by seasonable weather. Some prominent business men combat the idea that 1911 is to be a rather near year, and take the ground that the way is being paved for better times. Speculation in cotton, it is urged, is only hanging fire awaiting two important events next week; that is, the report on ginning on December 8 and the government estimate of the crop on December 9.

New Railroad Will Be Built.
[Special to The Times-Dispatch.]
Salisbury, N. C., December 2.—Announcement was made here last night that a new railroad is to be built at an early date from Winston-Salem by way of Spencer, Salisbury, Concord and Monroe, to connect with the Atlantic Coast Line on the south and the Norfolk and Western on the north. The road is to run parallel with the new Southbound for a considerable distance from Winston, and, traversing Itowan, will open up a great granite belt surpassed by none in the United States. A preliminary survey has been arranged for, and it is said that the building of the road for a distance of more than 100 miles is assured.
